

'Wordy of the Week'

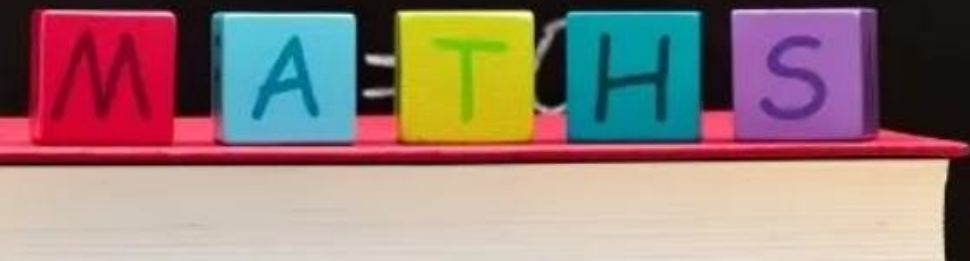

What do we know about this calculation?.

Is it possible for $2+2$ to be anything other than 4?

In my opinion...
I think that ...
because ...

Did you know :

- **Prehistoric Counting:** Early humans used tally marks on bones, such as the Ishango Bone, to record quantities of animals and resources, dating back to around 20,000 BCE. [↔ 2](#)

'Wordy of the Week'

If time travel is possible, do you think we might have met time travelers already?

Wormholes: Theoretical passages through space-time, known as wormholes, could potentially create shortcuts for long journeys across the universe, making them a popular concept in time travel theories.

Did you know ...

In my opinion...
I think... because...
I think differently... because...
I agree/disagree with... because...

'Wordy of the Week'

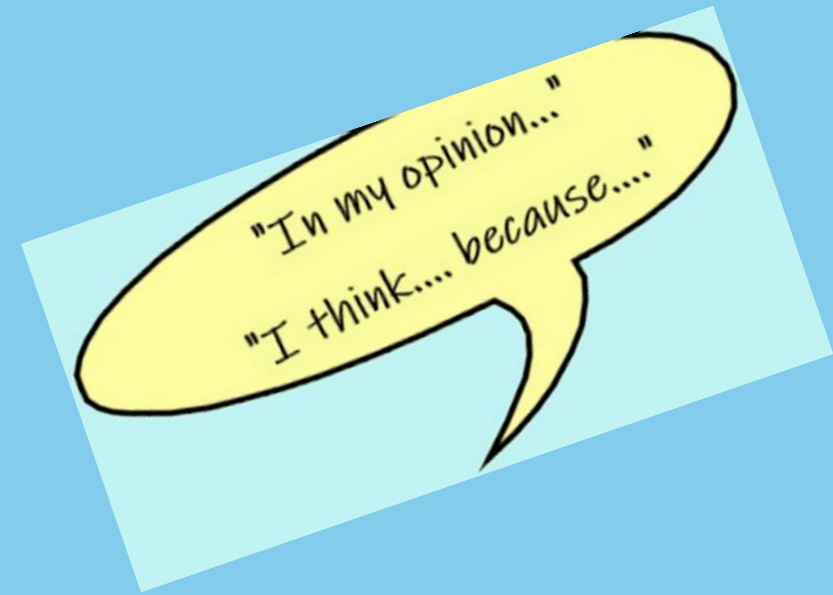

How do we
determine between
what's fact and
what's fiction?

'Wordy of the Week'

Why might two wise people disagree about what it means to be wise?

'Wordy of the Week'

Would you rather be a Wizard or a Jedi?

In my opinion...
I think that...
because ...
